The Riga Graduate School of Law Library has received a donation from the Law Firm Sorainen, by which the law firm supports acquisition of new, valuable books that are useful for legal professionals. Thanks to Sorainen, the library collection soon will be enriched by the latest scientific monographs on such topics as insolvency, mergers and acquisitions, e-commerce, insurance law, international arbitration, and others.

Sorainen is one of the long term partners of RGSL, and they have been donating books for almost a decade now. Specialized law literature is a valuable asset for both students and practitioners who are frequent visitors to Library. We are grateful to our partners, and we hope that our partnership will continue!
